Dept.

Planning

Staff Costs

Monitoring fee for additional Police, Fire, Ordinance Enforcement, Public Works, Parks & Recreation or other staff as determined by the Mayor or his/her designee.

Fee will be determined based on estimated hours needed and most current overtime rate.

A deposit is required.

Full payment is due within 30 days of commencement of film permit activities.

Planning

Marketing Rebate

A marketing rebate of \$200.00 will be issued if the "City of Taylor" is used as product placement. The rebate/refund is equal to the Permit Application Fee amount paid but not to exceed \$200.00.

The name "City of Taylor" must be referenced in the applicant's final featured product as well as in the film credits. The project must use the City's name in good taste and help to promote the community as a safe and clean place in which to live, work and play. The rebate will be issued after the Project Evaluation Survey has been turned in to the City when all film permit activities have ceased.

Domestic Water Service for Attached Multi-Family Dwelling Units

Individual domestic water services must be a minimum of 1-inch in diameter and shall be provided for each dwelling unit when the number of attached dwelling units is two or less. A single common domestic water service is permitted for multi-dwelling units when the number of attached units is three or greater. The common service shall be sized in accordance with the consumption demands of the multiple dwelling units as approved by the City Engineer. The minimum size for a common domestic water service is 2-inch diameter. For multi-dwelling complexes; it will be up to the discretion of the developer to either install one master meter per building or individual meters per unit. The master water meter shall be located in a utility room separate from the dwelling units and accessible to the City of Taylor Water Department at all times without requiring entrance into a dwelling unit. A key for the utility room shall be provided to the City of Taylor Water Department. The common domestic service, up to and including the water meter, shall be designated as a common element.

Domestic Sanitary Service for Attached Multi-Family Dwelling Units

Individual domestic sanitary services must be a minimum of 6-inch in diameter and shall be provided for each dwelling unit when the number of attached dwelling units is two or less. The use of a single domestic sanitary service is only permitted for multi-family dwelling units when the number of attached dwelling units is three or greater and the sanitary system is not under City ownership or responsibility; otherwise individual sanitary leads will be required per City specifications. The common service shall be sized in accordance with the peak capacity requirements of the multiple dwelling units as approved by the City Engineer. The minimum size for a common sanitary sewer lead is 6-inch diameter. Cleanouts for a common sanitary sewer lead serving multiple dwelling units shall be accessible from outside the multi-family dwelling unit and shall provide access to the entire length of the common lead serving each of the individual dwelling units (there shall be a cleanout at each end of the building). In the case of condominium developments, the common sanitary sewer, including wye connections for each dwelling unit, shall be designated as a general common element.

The minimum water bill shall consist of sewer meter charge and water meter charge; consumption charges for water, sewer disposal charges, non-residential user fee and Ecorse Creek user charge based on actual water usage.

Delinquent Accounts

Customers who fail to pay their bi-monthly service bill shall be charged a 10% penalty based on the current charges only.

Delinquent accounts being transferred to the tax roll shall be charged a fee equal to 15% of the amount being transferred.

Water Service Connection

Short Tap

A short tap shall be considered any service connection on a street to a main on the same side of the street as the building or on site.

Long Tap

A long tap shall be considered any service connection installed on a main located across the street from the building.

Long Tap Without Copper

A long tap without copper is an alternative selected by the builder and/or owner who elects to perform the boring and installation of the copper service under the street, rather than having the Water Department do so. The Water Department will make the necessary connection of the furnished copper line to the water main and to the building service line.

All service connections provided for municipally owned facilities should be charged at the above rates.

All service connections of two (2) inches or less shall be furnished and installed by the City of Taylor Department of Public Works, Water & Sewer Division from the water main to the property line. All service connections of more than two (2) inches shall be installed by a private contractor subject to the inspection and approval of the City. The cost of the water meter must be paid at the time the tap permit is paid.

Water and Sewer Tap Fees may be adjusted by the Director of Water and Sewer under special or unusual circumstances. Service installations may be deemed special or unusual based upon certain conditions, lot size, and/or types of structures, new or existing. Decisions will be based on factual information provided by the applicant and on site inspection of the property being serviced. The Director's decision will be final.
